“Painting Spectacular Watercolors”

Reach the next level of artistic confidence and ability as Paul helps you explore design, color, value, textures and patterns. Through informal lectures, discussions, demonstrations and critiques you will be guided in refining your personal painting style. Come prepared to find logical and creative answers to your watercolor problems.

Paul will demonstrate the versatility of watercolor paint. You will learn how to mix colors using a limited palette and how to work in thin layers of washes to build up luminous colors. Paul will lead you step-by-step with illustrations of the painting process. Emphasis will be on what makes a good painting, planning the entire picture area, the importance of thinking through the composition, good division of shapes, value planning, what to communicate about the subject, and how to correct mistakes.

If watermedia is your passion, then this highly energized painting workshop is for you! Paul's stress-free, positive approach toward the act of painting will inspire you to loosen up and have fun again. Expect an intense, concentrated and lively workshop where you will elevate your understanding of how watercolor can be controlled.

Paul is the author of *Painting Spectacular Light Effects in Watercolor*. His work is often featured in *International Artist* and *The Artist's Magazine*. He is a signature member of the American Watercolor Society and National Watercolor Society.
